Board Certified Autism Technicians (BCAT) require ongoing supervision by a professional who possesses a license and/or certification by a national entity to practice applied behavior analysis (ABA) and who is acting within the scope and competency of his/her license or certification. Each BCAT shall be supervised for no less than 5% of the service hours in which the BCAT implements a treatment plan using the principles and procedures of ABA. Supervision may be conducted via the Internet in accordance with all applicable privacy regulations and must include a minimum of two synchronous face-to-face contacts every 30 days, with the supervisor observing the BCAT provide services to an individual with autism spectrum disorder during at least one of the two contacts. Documentation of supervision must be maintained by the BCAT on the BCAT Documentation of Supervision form, which requires attestation by the supervisor(s). BCATs must submit the BCAT Documentation of Supervision form when applying for renewal of their certification.
